

# Grants for Everyone *(Regardless of Income)*

## Free Loft Insulation Top-up

Regardless of how much insulation is in your loft, we can top it up for you to a depth of around 300mm (12 inches). In many cases the works will be completely free and you could save up to £240 a year<sup>1</sup> on your heating bills.

## Free Cavity Wall Insulation

You could save up to £275 a year<sup>1</sup> by having your cavity walls insulated and the work is usually free!<sup>1</sup> Even homes built in the last 25 years may still benefit from additional insulation in the walls.

## Roof in Room, Flat Roof and Underfloor Insulation

If your home has a room in the roof such as a dormer bungalow, or a flat roof, you could be spending far more to heat your home than you need to. We can offer grants to insulate all of the walls and ceilings including the sloping roof area, we may even be able to insulate under your floors, helping to save you money and keep you warmer!

## Partial Grants for Double Glazing *(for homes with single glazing)*

If your home still has single glazing, we can provide a grant of up to £2,000 to upgrade your home to modern double glazed windows. The work will not be free, grants will range from 5-20% of the cost so you (or your landlord) will be required to fund the balance. Grants will be highest for larger homes that are heated by a fuel other than mains gas.

## Grants for Communal Heating *(including for landlords)*

Grants are available towards the cost of installing heating systems where at least 2 properties will be connected to the same heating source. This may be a landlord with a block of flats, a home with an annex, where adjacent properties are owned by the same family, a park home site, or neighbours who are willing to share their heating system. Please call us to discuss.

# Grants for People on Benefit

## Free\* Oil & LPG Boiler Upgrades

If your home is heated by an oil or LPG boiler that is running inefficiently, has a fault or is completely broken, we may be able to install a new one, completely free of charge. If your home is heated by mains gas we can offer a small grant but it will not cover the full cost of the works. Grants for new central heating systems are also available but a contribution will be required.

## Free\* Heating Control Upgrades

Did you know that you could save up to £155\*\* a year by having your boiler controls upgraded. If you do not have all 3 of the heating controls shown below, we can upgrade your heating controls free of charge to bring them up to current standards

What you get for free

- ✓ Room thermostat
- ✓ Programmer
- ✓ Thermostatic Radiator Valves

\*\*Source Energy Saving Trust typical savings for a typical three-bedroom semi-detached home, heated by gas.

## Free\* Storage Heater Upgrades

If your storage heaters are old or broken, we may be able to replace them with brand new models, complete with improved controls to make them more responsive and help to reduce your heating bills.

## Grants for Air Source Heat Pumps

We can now offer grants towards the cost of an air source heat pump, so you can heat your home from a renewable energy source. In some cases we can install the system free of charge!<sup>2</sup>

- ✓ Full house FREE heating systems available (including for Park Homes)
- ✓ Option to switch from LPG, oil or electric heating
- ✓ Runs efficiently on electricity - so no fuel deliveries needed

## Grants for Biomass Boilers & Stoves

You could save money on your energy bills when you heat your home with a biomass boiler and benefit from a real flame effect fire if you opt for a biomass stove. We may be able to install a biomass boiler free of charge!<sup>2</sup>

<sup>1</sup>All works are subject to survey and terms and conditions. Not all works will be free – please call to find out more. <sup>2</sup> Source Energy Saving Trust- based on a detached gas heated house

You may be eligible for one of our heating grants if you receive one of the following benefits (sorry not available for social housing properties):

- ✓ Pension Guarantee Credit
- ✓ Family Tax Credit<sup>3</sup>
- ✓ Working Tax Credit<sup>3</sup>
- ✓ Income Support
- ✓ Income-related Employment and Support Allowance
- ✓ Income-based Jobseeker's Allowance
- ✓ Universal Credit<sup>3</sup>

<sup>2</sup> Subject to survey and terms and conditions. You will be required to assign the rights to the Government Renewable Heat Incentive payments to Happy Energy
