

Electric Vehicle (EV) Charging Points on the Tin Coast

The Tin Coast Partnership, along with Sustainable Pendeen, are looking to install a network of wall-mounted Electric Vehicle (EV) charging points along the Tin Coast.

There are 10 charging points available for local business and accommodation providers located within the St Just Town Council boundary and Morvah, provided as part of the Coastal Communities Funded project.

REGISTER YOUR INTEREST

If you're a local business or accommodation provider, and would like to have an Electric Vehicle (EV) charging point installed on your premises, free of charge, please contact Jane & Sandra from Sustainable Pendeen to register your interest.

Email: sustainablependeen@gmail.com

Phone Sandra: 01736 787899

Please register your interest before 12pm on Thursday 29th April.

NEXT STEPS AND TIMELINE

- Sustainable Pendeen will be in contact with everyone who registers an interest in having an EV charger, with some questions regarding specifications and locations.
- Site visits will then be arranged by Sustainable Pendeen, to assess the suitability of the possible locations.

- Subject to successful site visit, you will then be asked to complete a short application form.
- We have the budget to install approx. 10 charging points. If we receive more applications from suitable locations, a decision on where to install the charging points will be made by Sustainable Pendeen and the Tin Coast Partnership Steering Group.
- The charging pods will be installed in May or June 2021.

EV CHARGER SPECIFICATIONS

The chargers we will be installing are Rolec WallPods. These chargers are designed to be small and simple to use. The cost of a full EV car charge is very much dependent on your energy tariff, the type of electric vehicle and battery capacity, but is estimated between £3-5, with smaller “top-up” charges being significantly less. There is also an option to have a charging point that passes on the cost of use to your customers. More technical specifications for the charging points available on request.

SPREAD THE WORD

Please pass on this email and the details about the EV charging points to businesses and accommodation providers located around St Just, Pendeen and Morvah, who may be interested in having one installed. We look forward to hearing from you soon.
